

AIR SLOT TECHNOLOGY REDEFINES DISTANCE

20 Yards More

- ♦ Improves Air Flow around club head during swing up to 30%
- ♦ Improves Club Head Stability during the swing and impact up to 30%
- ♦ Increases Club Head Speed up to 10%
- ♦ Increases over-all distance up to 20 yards

USGA and R&A Approved

Distance Increase. **Stability Increase.**
Accuracy Increase.

AirSlot technology combines many of the club head improvement designs of the last 20 years, resulting in the best designed driver ever introduced into the market.

➤ RADICAL AIRSLOT TECHNOLOGY REDEFINES DISTANCE

- ✦ AirSlot's revolutionary design gives golfers confidence through increased performance through a new technology never before offered by another driver or fairway wood.

AIRSLOT = Distance + Stability + Accuracy

➤ AIRSLOT TRUE LAUNCH DESIGN

- ✦ AirSlot produces less than 2800 RPM of backspin compared to an estimated 4300 RPM produced by traditional clubs, generally resulting in lower trajectory and longer roll. This trajectory increases carrying distance by up to 8 yards and increases rolling distance by up to 12 yards or more.

➤ AIRSLOT DISTANCE

- ✦ AirSlot's design characteristics produce an overall distance up to 20 yards longer than conventional club designs. The increase of M.O.I. (moment of inertia) reduces the loss of energy during impact.

➤ AIRSLOT STABILITY

- ✦ The AirSlot produces higher acceleration, improving the deflection rate at impact compared to conventional driver designs.

Preserving Traditions

AirSlot clubs use classic time honored names that go back to the origins of golf. This attention to tradition combined with the newest technology, make AirSlot clubs a must have for golfers.

Play-Club • Long Spoon • Baffy • Baffy Spoon

Shown Here

Driver - Play Club
 Available in lofts of
 8.5, 9.5, 10.5, stiff or regular.
 Right-hand only.

Features:
 360cc Head Size
 Forged Titanium Head
 Graphite Shaft
